Signed Hamish Mackie, Numbered Edition of 6, Dated 2019

55cm high x 21cm wide x 23cm deep / 21.5" x 8" x 9"

Swifts have a well-deserved reputation for being incredible fliers. A migratory bird, they cover huge distances every year of around 200,000 km. They even sleep and mate on the wing, remaining in the air for many months at a time. Swifts are monogamous and visit the UK in the summer to breed and then winter in Africa. They have long scythe-shaped wings and a short, forked tail.

Shipping P.O.A. Subject to quotation and will be charged separately.
